

7100 Series Stool Product Specification

FRAME: Frames are 1" - 18 gauge tubing with 3/8" diameter solid rod foot ring. Gas shielded, metal arc welded for maximum strength and stability

SEAT: The 5/8" thick Melsur™ solid plastic seats and backs are fastened directly to the frame with self threading screws. No exposed rivets.

METAL FINISH: Bright nickel chrome plating meets all present requirements for non-corrosive and abrasion resistant finishes.

GLIDES: High shoulder glides with an internal gripper spring. Glides are 1 1/4" diameter and a 40 degree full-swivel with a 1/2 shoulder. Steel guides are optional

HEIGHTS: Adjustable 18" – 24", 24"- 30".

* World's leading manufacturer of solid plastic desktops and seats.

Made in the USA
