

SCHOLAR CRAFT™

SC180 Series

Overview :

Melsur® solid plastic, 3/8" thick made of wood flour and Melamine resin with binder component to assure a durable, smooth surface. Seat and back is saddle and posture contoured. High impact spacers are located between the metal tubing and the solid plastic back for shock absorbency. Seat and back to be attached to the frame with heavy duty, self-tapping screws to allow no exposed hardware on the surface.

The frame formed of 16 gauge 1" steel tubing legs with 3/4" 14 gauge continuous twin back supports. Legs and back are MIG welded for reinforced strength. Constructed using a crossover leg design providing maximum support with minimum stress on welds. Nickel chrome plated for durable finish. The Glides are silent, rubber cushioned, swivel of self-leveling 1" minimum diameter hard carbon, nylon base type with a flat bottom, chrome plated.

Book-basket. Steel glides, Q-ball glides
