

2 thrive™ 5120 Series Stool

Overview :

Heavy duty and static free, high-density polypropylene material with a light grain texture surface on both sides, injection molded into a one-piece shell with waterfall edge. Molded in a Ribless back design for comfort and flexibility. The ergonomically designed opening in the shell back provides added comfort as well as a handle grip. The shell is attached to the frame with steel rivets underneath the seat, which offers no exposed hardware on the surface.

The Legs are formed of 1-1/8" 14 gauge steel that is connected by two 14 gauge steel brackets. The stool features a welded foot rest for stability and comfort. The Glides are silent, rubber cushioned, swivel and self-leveling, 1" diameter, hard carbon steel, nylon based type with a flat bottom and chrome plated.
